Dear Sunny,

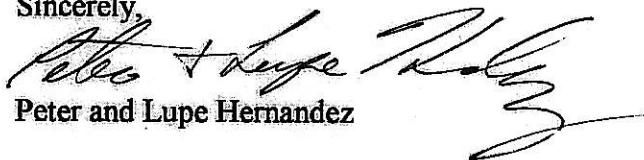

It is with great regret that I withdraw Daniel from Sunrise Childrens Center and have taken upon myself to write this letter of deep appreciation for the wonderful work you have accomplished with my son.

My in-laws are in need of help and have asked us to live with them in Irvine. Out of our love and dutiful obligations, we have decided to help and move to Irvine.

I reluctantly make such a decision because it means taking Daniel out of your program. My son entered the program in need of an environment that helps a child grow through a safe, secure, loving environment. You provided that environment above and beyond what we could have ever imagined. You are a natural teacher with a warm and nurturing nature. You are thoughtful and respectful. In addition, the quality of your program is reflected in the loving, nurturing and respectful manner of the children. I cannot thank you enough for always making me feel that when I dropped my son off in the morning I was leaving him with his second family.

As a parent and a public school teacher, I am inspired by the wonderful labor of love brought about by you and your staff. I believe in your ministry and wish you a prosperous future.

Sincerely,

  
Peter and Lupe Hernandez
